

MARCH 5, 2024 PRIMARY BALLOT STATEMENT

Name: Lori D. Wilson

Occupation: Assemblymember, 11th District

Integrity. Resilience. Strength. Compassion. Focus. Quality traits that define my life and what led me to success as your representative for Assembly District 11.

Delivering over \$20 million in state resources directly to our District for public safety, local housing, electric vehicle infrastructure, flood resiliency, and transportation projects that will improve the quality of life in Solano, Contra Costa, and Sacramento Counties.

Passing landmark legislation supporting manufacturing, people with disabilities, flood control projects, habitat restoration, and the needs of farmers.

Being elected Chair of the California Legislative Black Caucus and appointed Chair of the Transportation Committee.

2023 was a defining year not only as your Assemblymember but for me personally. With the support of family, friends, staff, and so many of you, we accomplished all of this while I battled breast cancer and recovered from multiple surgeries, chemotherapy, and radiation. I am now cancer-free and ya'll haven't seen nothing yet!

The work is far from over! I'm focused on the long-term solutions we need to support businesses, build housing across all income levels, expedite services that transition people off the streets and into permanent housing, address public safety, and improve the quality of life for us all. Really, it is about building a California for everyone!

I made a promise to you in early 2022, I would hit the ground running fighting for the issues you care about. I've kept that promise! I would be honored to have your continued support as well as your vote.
